MEMORANDUM FOR: Deputy to the DCI for National
Intelligence Officers & the NIOs

SUBJECT: Review of National Intelligence

1. Attached are the draft contributions of each PRD area and topical officer to the next issue of the Review of National Intelligence. We would welcome any comments the NIOs wish to make concerning these contributions. We would appreciate the pinpointing of any factual errors and the identification of any major judgmental differences between our accounts and your perceptions.

2. Since these papers are in a sense "raw," we do not ask for comments on style (or grammar) and do not seek editing assistance. All of the long contributions will in any event be greatly reduced in size and all of the papers will be rigorously edited.

3. It is understood by all concerned, I think, that while we will give the most careful attention to all NIO comments, the final authority and responsibility for the contents of the RONI must rest with us.

4. Please get your comments back to me or [] by cob Friday or first thing Monday morning, either in writing or by telephone. We have a very tight production schedule. (If you have any questions about
